Summary

I am a front-end developer with 3+ years of experience driven by ideas and enthusiasm. The main thing in my work is understood that UI is continuation of design. My current stack is React/Redux. Hit me up for Future Project!

Experience

Middle Frontend Developer
Sberbank

Jun 2022 - Present (5 months +)

Frontend development of the SberBusiness transport solution using React. Developing an interface for logistics solutions, working with maps by 2GIS API, implementing routes, creating on-screen forms for creating documents with React hook form and React Query.
